CORONA IMAGES OF SITES

Each database site that was visible on a CORONA image is presented in the following appendix. Sites are listed in alphabetical order by prefix (e.g. ARNE, HUS, KH etc.) and then numerical order by database parent ID (e.g. ARNE_1_0_0, ARNE_2_0_0 etc.). Coordinates (UTM 40 N) are provided for each site in the image captions. All images courtesy of the U.S. Geological Survey.
