DEAD BODY LANGUAGE

DECIPHERING CORPSE POSITIONS IN EARLY ANGLO-SAXON ENGLAND

Sian Mui

(Lechlade Grave 81)

Volume II

Of two volumes

Submitted in fulfilment of the requirements for the degree of
PhD in Archaeology

Durham University
Department of Archaeology

February 2018

TABLE OF CONTENTS

VOLUME II

Appendix One: Grave catalogue.....	365
Appendix Two: Catalogue of multiple burials.....	480
Appendix Three: Reconstruction drawings of graves.....	485
Appendix Four: Results in full.....	629
Appendix Five: An inventory of cemeteries.....	717

APPENDIX FIVE

AN INVENTORY OF CEMETERIES

[Alt] – Alton (Hampshire)

Evison, V. I., 1988, *An Anglo-Saxon cemetery at Alton, Hampshire*, Hampshire Field Club and Archaeological Society Monograph 4, Hampshire Field Club and Archaeological Society.

Anglo-Saxon burials were found during housing development at Alton in 1960. Subsequently excavation uncovered 49 inhumation graves and 46 cremations. Further construction works in 1986 uncovered a single inhumation. Evidence from grave goods and pottery urns suggest the Anglo-Saxon cemetery at Alton began in the early-mid fifth century and continued up to the mid-sixth century, when the burial activity halted, and resumed for a brief period during the first half of the seventh century.

[Alw] Alwalton (Cambridgeshire)

Gibson, C., 2007, 'Minerva: an early Anglo-Saxon mixed-rite cemetery in Alwalton, Cambridgeshire', in: Semple, S. and Williams, H. (eds.), *Anglo-Saxon Studies in Archaeology and History 14: Early medieval mortuary practices*, Oxford University School of Archaeology, Oxford, 238–350.

The cemetery at Alwalton was located approximately 6 km south-west of Peterborough, 10 m south of the River Nene. It was discovered and excavated by Hertfordshire Archaeological Trust in 1999 prior to site development. 34 inhumations dated from the late fifth to early seventh centuries were uncovered, along with 28 urned and two unurned cremations from the fifth and sixth centuries.

[BecA] Beckford A (Worcestershire)

Evison, V. I. and Hill, P., 1996, *Two Anglo-Saxon cemeteries at Beckford, Hereford and Worcester*, CBA Research Report 103, Council for British Archaeology, York.

Beckford cemetery A was discovered during gravel-digging operations in 1954 and was subsequently excavated by Vera Evison, uncovering 24 graves datable to the late fifth to mid-sixth centuries.

[BecB] Beckford B (Worcestershire)

Evison, V. I. and Hill, P., 1996, *Two Anglo-Saxon cemeteries at Beckford, Hereford and Worcester*, CBA Research Report 103, Council for British Archaeology, York.

Located 600 yards east of the previously excavated cemetery A, Beckford cemetery B was discovered during gravel-digging in 1958. Subsequent excavations in 1958 and 1959 revealed 106 inhumations and four cremations. Cemetery B was contemporary with cemetery A, in use between the late fifth and mid-sixth centuries.

[Ber] Berinsfield (Oxfordshire)

Boyle, A., Dodd, A., Miles, D., and Mudd A., 1995, *Two Oxfordshire Anglo-Saxon cemeteries: Berinsfield and Didcot*, Thames Valley Landscapes Monograph 8, Oxford Archaeological Unit, Oxford.

The Anglo-Saxon cemetery at Wally Corner, Berinsfield, Oxfordshire lies approximately one kilometre north of Dorchester, one kilometre east of the Thames, and 300 metres west of the river Thame. The site was excavated in 1974 by Oxford Archaeological Unit (Now Oxford Archaeology), uncovering the inhumed remains of 114 individuals in 100 graves, and four cremations. Artefactual evidence suggests the cemetery was in use from the mid fifth century until the late sixth or early seventh century.

[BnF] Blacknall Field (Wiltshire)

Annable, F. K. and Eagles, B. N., 2010, *The Anglo-Saxon cemetery at Blacknall Field, Pewsey, Wiltshire*, Wiltshire Archaeological and Natural History Society Monograph 4, Devizes.

After the discovery of Anglo-Saxon beads and human remains at Blacknall Field, Pewsey, Wiltshire in 1968, annual excavations were conducted at the site between 1969 and 1976 by Devizes Museum. Four cremations and near 100 inhumations were excavated, many of

which contained grave goods which suggest burial activity between the mid-late fifth century and the mid-sixth century. Recovered artefacts indicate strong connections with the Upper Thames Valley, as well as links with the south-east Midlands, the lower Thames area, Kent, East Anglia, and Sussex.

[Cas] Castledyke South, Barton-on-Humber (Lincolnshire)

Drinkall, G. and Foreman, M., 1998, *The Anglo-Saxon cemetery at Castledyke South, Barton-on-Humber*, Sheffield Excavation Reports 6, Sheffield Academic Press, Sheffield.

The Anglo-Saxon cemetery at Castledyke was first discovered in 1939. Further excavation took place between 1975 and 1990, uncovering 227 individuals in 196 graves, many of which were accompanied by grave goods. The cemetery was in use from the late fifth or early sixth century to the late seventh century.

[Cha] Charlton Plantation (Wiltshire)

Davies, S. M., 1985, 'The excavation of an Anglo-Saxon cemetery (and some prehistoric pits) at Charlton Plantation, near Downton', in: *Wiltshire Archaeological and Natural History Magazine*, 79, 109–54.

Road-widening works in 1981 led to the discovery of the cemetery at Charlton. Salisbury Museum salvages 12 burials before the road work was stopped, and subsequent excavation by Wessex Archaeological Committee further uncovered 30 graves and an urned cremation. Grave goods suggest the cemetery was in use between the late fifth and the late seventh century.

[Clm] Cleatham (Lincolnshire)

Leahy, K., 2007, 'Interrupting the pots': *The excavation of Cleatham Anglo-Saxon cemetery, North Lincolnshire*, CBA Research Report 155, York.

Prior to destruction by ploughing, the cemetery at Cleatham was excavated between 1984 and 1989, uncovering 62 inhumation graves and 1204 cremation urns. Stratigraphic

relationships and artefact typologies allow dating of the cremation and inhumation graves spanning from the fifth to the late seventh century.

[Col] Collingbourne Ducis (Wiltshire)

Gingell, C. J., 1978, 'The excavation of an early Anglo-Saxon cemetery at Collingbourne Ducis' in: *The Wiltshire Archaeological Magazine*, 70/71, 61–98.

The cemetery at Collingbourne Ducis was discovered in 1974 during housing development and subsequently excavated, uncovering 33 inhumation graves. Grave goods suggest the cemetery was in use from the sixth to mid-seventh century.

[DBu] Dover Buckland (Kent)

Evison, V. I., 1987, *Dover: The Buckland Anglo-Saxon cemetery*, Historic Buildings and Monuments Commission for England, London.

Parfitt, K. and Anderson, T., 2012, *Buckland Anglo-Saxon cemetery, Dover excavations 1994*, Canterbury Archaeological Trust Ltd, Ashford.

The Buckland cemetery was discovered in 1951 during housing developments. Excavations by Vera Evison between 1951 and 1953 uncovered an early Anglo-Saxon cemetery, and further housing development in 1994 led to a second excavation which revealed extensive burial activity to the south. Over 400 furnished inhumation graves have been excavated.

[Did] Didcot (Oxfordshire)

Boyle, A., Dodd, A., Miles, D., and Mudd A., 1995, *Two Oxfordshire Anglo-Saxon cemeteries: Berinsfield and Didcot*, Thames Valley Landscapes Monograph 8, Oxford Archaeological Unit, Oxford.

Archaeological evaluation in Didcot Power Station in 1991 led to the discovery and excavation of 17 Anglo-Saxon inhumations and two sunken feature buildings. 13 graves contained grave goods, which date the burials to the seventh century. The full extent of the cemetery has not been established.

[Din] Dinton (Buckinghamshire)

Hunn, A., Lawson, J. and Farley, M., 1994, 'The Anglo-Saxon cemetery at Dinton, Buckinghamshire,' in: Filmey-Sankey, W. and Griffiths, D. (eds.), *Anglo-Saxon studies in archaeology and history* 7, Oxford University Committee for Archaeology, Oxford.

The modern village of Dinton is located on the southern edge of the Vale of Aylesbury in Buckinghamshire. The Anglo-Saxon cemetery was situated on a ridge sloping northwest towards the River Thame, which joins the River Thames at about 32 kilometres to the southwest. Burial activity at Dinton had previously been recorded in the eighteenth and nineteenth centuries before archaeological evaluation in 1991, which led to the excavation of the fifth- and sixth-century inhumation cemetery, uncovering the remains of 20 individuals and associated grave goods. The excavation has established the northern and eastern limits of the cemetery, but the western and southern extents lie outside the excavation area and therefore remain undefined.

[Drx] Droxford (Hampshire)

Aldsworth, F., 1979, 'Droxford Anglo-Saxon cemetery, Soberton, Hampshire', in: *Proceedings of the Hampshire Field Club and Archaeological Society*, 35, 93–182.

The Anglo-Saxon cemetery at Droxford, south-east Hampshire, was first discovered in 1900 during the construction of the Meon Valley railway line. The excavation was poorly recorded, but at least 176 of the artefacts uncovered were donated to the British Museum and 27 to the Winchester City Museum. Further railway development in 1970 re-discovered the cemetery, leading to a re-examination of the material from the previous investigation and a salvage excavation in 1973–1974. 41 inhumation graves were excavated, many of which were furnished with grave goods, dating the cemetery to the late fifth and sixth centuries.

[Edx] Edix Hill (Cambridgeshire)

Malim, T. and Hines, J., 1998, The Anglo-Saxon cemetery at Edix Hill (Barrington A), Cambridgeshire: Excavations 1989–1991 and a summary catalogue of material from 19th century interventions, CBA Research Report, 112, Council for British Archaeology York.

Edix Hill is located approximately 12 km south-west of Cambridge on the northern side of the river valley of the Rhee which flows northwards to the Fens. The cemetery was first

recorded in 1860 as human remains were discovered during drainage works (Babington 1860), and a second cemetery was found and excavated in 1880. Poor documentation had caused much confusion to the exact location of the Edix Hill cemetery, but metal-detecting finds in 1987 and 1988 helped establish the site location and excavations took place between 1989 and 1991 to recover the surviving burials deemed vulnerable to modern ploughing. The excavations unearthed the remains of 149 individuals in 115 graves, many of which furnished with goods. The cemetery was in use between AD 500 and the early seventh century.

[Emp] Empingham (Rutland)

Timby, J. R., 1996, *The Anglo-Saxon cemetery at Empingham II, Rutland: Excavations carried out between 1974 and 1975*, Oxbow Monograph, Oxford.

The rescue excavation of the cemetery at Empingham II in 1974 and 1975 uncovered 135 inhumations and one cremation. Another cemetery, Empingham I, was discovered in the vicinity and excavated between 1967 and 1970. The area appears to be a focus of early medieval activities, suggested by settlement evidence including several *grübenhauser* with associated occupational deposits in the Rutland area. Grave assemblages suggest the cemetery was in use between the late fifth and early seventh centuries.

[Fin] Finglesham (Kent)

Hawkes, S. C. and Grainger, G., 2006, *The Anglo-Saxon cemetery at Finglesham, Kent*, Oxford University School of Archaeology Monograph 64, Oxford University School of Archaeology, Oxford.

The cemetery at Finglesham, located in the edge of the east Kent chalklands, was first excavated in 1928–1929, uncovering some 38 graves. Excavations by Sonia Chadwick Hawkes between 1959 and 1967 revealed over 200 additional inhumations, datable to the sixth to eighth centuries. Finglesham produced, most notably, the famous sixth-century gold buckle with the depiction of a naked figure, wearing a belt and holding spears.

[GC] Great Chesterford (Essex)

Evison, V., 1994, *An Anglo-Saxon cemetery at Great Chesterford, Essex*, CBA Research Report, 91, Council for British Archaeology, York.

Great Chesterford is located on the gravel terrace of the east bank of the River Cam, approximately 20 km south of Cambridge. The cemetery was discovered during commercial digging of gravel in 1952 and excavated between 1953 and 1955. Excavations unearthed 161 inhumations, 33 cremations, as well as two horse burials and two dog burials. Grave good evidence suggests the cemetery was in use between the mid-fifth and the late sixth century. Great Chesterford had unusually high proportion of child burials compared to contemporary cemeteries in England.

[Gun] Gunthorpe (Cambridgeshire)

Patrick, P., French, C., and Osborne, C., 2007, 'Rescue excavation of an early Anglo-Saxon cemetery at Gunthorpe, Peterborough', in: Semple, S. and Williams, H. (eds.), *Anglo-Saxon Studies in Archaeology and History 14: Early medieval mortuary practices*, Oxford University School of Archaeology, Oxford, 204–237.

The cemetery at Gunthorpe was excavated in 1987, uncovering 32 skeletons with accompanying grave artefacts from 30 inhumation graves and one cremation burial. Artefactual evidence suggests the cemetery was in use for a brief period of time in the sixth century.

[HDr] Headley Drive, Tadworth (Surrey)

Harp, P. and Hines, J., 2003, 'An Anglo-Saxon cemetery at Headley Drive, Tadworth, near Banstead', in: *Surrey Archaeological Collections*, 90, 117–145.

Housing development at Headley Drive in 1986 led to the discovery of a number of Anglo-Saxon burials. Subsequent rescue excavation revealed a total 42 inhumation graves, the majority of which were modestly furnished or unfurnished. The cemetery has been dated to the late sixth to early eighth centuries.

[Lec] Lechlade (Gloucestershire)

Boyle, A., Jennings, D., Miles, D., and Palmer, S., 1998, *The Anglo-Saxon cemetery at Butler's Field, Lechlade, Gloucestershire, volume 1: Prehistoric and Roman activity and Anglo-Saxon grave catalogue*, Thames Valley Landscape Monograph 10, Oxford Archaeological Unit, Oxford.

Boyle, A., Jennings, D., Miles, D., and Palmer, S., 2011, *The Anglo-Saxon cemetery at Butler's Field, Lechlade, Gloucestershire, volume 2: The Anglo-Saxon grave goods specialist reports, phasing and discussion*, Thames Valley Landscape Monograph 33, Oxford Archaeology, Oxford.

The Anglo-Saxon cemetery at Butler's Field, Lechlade, Gloucestershire was excavated in 1985 by the Oxford Archaeological Unit (now Oxford Archaeology). The site lies approximately 800 metres north of the River Thames, close to its confluence with the River Leach at one kilometre to the east. The excavation uncovered a total of 199 inhumations, 29 cremations, three charnel deposits and one empty grave. The cemetery was in use between the mid or late fifth century and the late seventh century.

[MLa] Market Lavington (Wiltshire)

Williams, P. and Newman, R., 2006, *Market Lavington, Wiltshire: An Anglo-Saxon cemetery and settlement*, Wessex Archaeology, Salisbury.

The cemetery at Market Lavington is situated on a greensand ridge below the north-west chalk escarpment of Salisbury Plain. Planning and development of the area led to a rescue excavation in 1990, which uncovered Anglo-Saxon burial and settlement evidence including 42 furnished inhumations and three sunken-featured buildings. The early to middle Anglo-Saxon settlement features were broadly contemporary with the cemetery, dated to the late fifth and sixth centuries.

[Mil] Mill Hill, Deal (Kent)

Parfitt, K. and Brugmann, B., 1997, *The Anglo-Saxon cemetery on Mill Hill, Deal, Kent*, The Society for Medieval Archaeology Monograph Series, 14, London.

Discovery of Anglo-Saxon burial activity at Mill Hill began as early as the 1890s. Evidence suggests up to four cemeteries in the area. Cemetery I was excavated between 1986 and 1989, uncovering 76 graves dating to the sixth century. A prehistoric barrow, survived as a ring-ditch, acted as the focal point around which the Anglo-Saxon graves were organised.

[Oak] Oakington (Cambridgeshire)

Taylor, A., Duhig, C., and Hines, J., 1997, 'An Anglo-Saxon cemetery at Oakington, Cambridgeshire', in: *Proceedings of the Cambridge Antiquarian Society*, 86, 57–90.

Mortimer, R., Sayer, D., and Wiseman, R., 2017, 'Anglo-Saxon Oakington: A central place on the edge of the Cambridgeshire Fen' in: Semple, S., Orsini, C., and Mui, S. (eds), *Life on the edge: Social, political and religious frontiers in early medieval Europe*, Braunschweigisches Landesmuseum, 305–316.

Anglo-Saxon burial at Oakington, located 7 km north-west of Cambridge, was first identified in the 1920s due to ploughing activities. The rediscovery of the cemetery in 1993 led to the excavation of 26 furnished burials dating to the sixth century (Taylor et al 1997). Further excavations led by University of Central Lancaster and Oxford Archaeology East (then CAMARC) took place in several seasons from 2006 to 2007 and from 2010 to 2014, unearthing 124 inhumations, including six double burials and one triple burial. Post-excavation analysis is currently underway.

[Pol] Polhill (Kent)

Philp, B., 2002, *The Anglo-Saxon cemetery at Polhill near Sevenoaks, Kent 1964–1986*, Kent Archaeological Rescue Unit.

Philp, B. J., 1973, 'Site 24. The Anglo-Saxon cemetery at Polhill, Dunton Green, Kent', in: *Excavations in West Kent 1960–70: The discovery and excavation of prehistoric, Roman, Saxon and medieval sites, mainly in the Bromley area and in the Darent Valley*, Kent Archaeological Rescue Unit, Dover Castle, 164–214

Philp, B. J., 1979, *Kent Archaeological Review* 58, 178

Anglo-Saxon burial activities at Polhill have been unknown since the nineteenth century. A extensive excavation was carried out in 1967, revealing 68 inhumation graves, followed by the discovery of four more graves in 1978. The construction of the M25 motorway led to more excavations in 1984 which uncovered 51 more graves.

(1964-67) NGR: TQ 5504 1590. The construction of the Sevenoaks Bypass in the 1960s disturbed a number of burials and led to the excavation of the seventh-century cemetery.

(1986) The graves were mostly aligned with the head to the west. Most of the graves were modestly furnished. The cemetery has been dated to the mid-seventh to the mid-eighth century.

[Sew] Sewerby (East Yorkshire)

Hirst, S. M., 1985, *An Anglo-Saxon inhumation cemetery at Sewerby East Yorkshire*, York University Archaeological Publications 4, York.

Excavations in 1959 and 1974 uncovered over 50 furnished inhumation graves at Sewerby, Bridlington, East Yorkshire, datable to the late fifth or sixth century to the seventh century. The cemetery is notable for the double burial of Sew 41/49, where a richly adorned young woman was overlain by an elderly woman. The latter, found in a prone position with stones on her back, is commonly interpreted as having been buried alive.

[Sto] Storey's Meadow, West Meon (Hampshire)

Ford, S. and Falys, C., 2012, *A Bronze Age ring ditch and Saxon cemetery at Storey's Meadow, Marland Lane, West Meon, Hampshire*, Thames Valley Archaeological Services. Unpublished draft publication report.

In advance of housing development, Storey's Meadow, West Meon was evaluated and excavated in October and November 2011, uncovering a Bronze Age ring ditch and evidence for early-to-middle Anglo-Saxon activities, including a series of postholes, one urned cremation, and 48 inhumation graves. Radiocarbon dates from the skeletal remains and grave-good typology suggest the cemetery was in use between the late fifth and late seventh century.

[Wat] Water Lane, Melbourn (Cambridgeshire)

Duncan, H., Duhig, C., and Philips, M., 2003, 'A late Migration/Final Phase cemetery at Water Lane, Melbourn', in: *Proceedings of the Cambridge Antiquarian Society*, 92, 57–134.

Wilson, D. M., 1956, 'The initial excavation of an Anglo-Saxon cemetery at Melbourn, Cambridgeshire', in: *Proceedings of the Cambridge Antiquarian Society*, 49, 29–41.

A seventh-century cemetery discovered in the vicinity of the Water Lane site was excavated in 1952, uncovering 28 graves containing 30 individuals, but the exact location of these graves are now lost. In 2000, in advance of housing development, archaeological investigation uncovered the remains of 59 individuals in 52 graves, many of which furnished with goods, suggesting the cemetery was in use between the late sixth and late seventh centuries.

[WF] Westfield Farm, Ely (Cambridgeshire)

Lucy, S., Newman, R., Dodwell, N., Hills, C., Dekker, M., O'Connell, T., Riddler, I., and Walton Rogers, P., 2009, 'The burial of a princess? The later seventh-century cemetery at Westfield Farm, Ely', in: *The Antiquaries Journal*, 89, 81–141.

The late seventh-century cemetery at Westfield Farm, located south-west of Ely city centre, was excavated by Cambridge Archaeological Unit in 2006 prior to housing development. 15 inhumation burials were uncovered, all aligned in a roughly west-east orientation. Grave 1, a well-furnished grave of a 10-to-12-year-old individual, appears to have acted as a central burial around which the other graves were arranged. Graves 1 and 2 contained rich feminine grave assemblages datable to the mid- to late seventh century, while the other graves contained little or no grave goods.

[WG] Westgarth Gardens, Bury St Edmunds (Suffolk)

West, S. E., 1988, *The Anglo-Saxon cemetery at Westgarth Gardens, Bury St Edmunds, Suffolk: Catalogue*, East Anglian Archaeology Report, 38, Suffolk County Planning Department, Bury St Edmunds.

The cemetery at Westgarth Gardens, Bury St Edmunds was discovered in 1972 during housing development, and subsequently a salvage excavation took place in great haste. The site, located on the south bank of the River Linnet, comprised 65 inhumations, aligned roughly west-east, as well as four cremation burials. Grave artefacts can be dated from the mid-fifth to the seventh century.

[WH] West Heslerton (North Yorkshire)

Haughton, C. and Powlesland, D., 1999, West Heslerton the Anglian cemetery, volume i: The excavation and discussion of the evidence, The Landscape Research Centre Ltd.

Haughton, C. and Powlesland, D., 1999, West Heslerton the Anglian cemetery, volume ii: Catalogue of the Anglian graves and associated assemblages, The Landscape Research Centre Ltd.

The Anglo-Saxon cemetery at West Heslerton was discovered in 1977 during sand extraction, leading to a rescue excavation programme between 1977 and 1987. It revealed a number of Neolithic and Bronze Age monuments, 11 prehistoric burials, and 185 early medieval inhumations (including one horse burial) and 20 cremations. The Anglo-Saxon cemetery was in use between the late fifth and early seventh centuries.

[WP] Worthy Park, Kingsworthy (Hampshire)

Hawkes, S. C. and Grainger, G., 2003, *The Anglo-Saxon cemetery at Worthy Park, Kingsworthy, near Winchester, Hampshire*, Oxford University School of Archaeology Monograph 59, Oxford University School of Archaeology, Oxford.

The cemetery at Worthy Park, located on the north side of the valley of the River Itchen and 5 km north of Winchester, was first recognised in 1944 and excavated in 1961–1962 by Sonia Chadwick Hawkes. A total of 94 inhumations and 46 cremations were found, although the full extent of the cemetery has not been established. Pottery urns and grave goods suggest that the cemetery was in use between the fifth and seventh centuries.
